

Genesee Valley Conservancy

Memorial Planting Program

Unless otherwise directed by the donor, memorial gifts will be allocated to this program.

Gift Method

Gifts may be made by any method (online, via mail, etc.). Please include a note that it is a memorial gift and the name of the individual being honored.

Acknowledgement

Donors will be thanked by the organization and listed in our Annual Report (unless opting to be anonymous). Additionally, we will notify the family of your remembrance (but not the amount).

Annually, around Arbor Day, the organization will tag trees planted through this program to raise awareness of the organization's mission, the remembrances that have been made, and the donors who made these plantings possible.

Gift Use

Memorial gifts will be combined and used to purchase mature trees to be planted in communities each fall where there is a need and the benefit will be greatest. Gifts may also purchase seedlings in the spring to be used in restoration projects on public access nature preserves.
